**“Every Child,  
Every Chance,  
Every Day”**

**Every Child, Every Chance, Every Day**

## **Breach Management Policy**

Governors and staff are committed to delivering the very best for our children. Our Vision is fundamental to our role as a Church of England School with its roots coming from the original blessing and verse presented to our school on its official opening in 1955.

***Thy word is a lamp to my feet and a light to my path.***

*Psalm 119 Vs 105*

*The following five components describe the desired outcomes we offer through it.*

- *Together, we will prepare you for life and learning*
- *Together, we will teach you to live within the values of God's word*
- *Together, we will safely lead you on your journey*
- *Together, we will guide you to a fulfilling future*
- *Together, we will forever help you to grow in confidence*

This procedure is based on guidance on personal data breaches produced by the Information Commissioners Office (ICO) and the Article 29 Working Party

On finding or causing a breach, or potential breach, the staff member or data processor must immediately notify the Data Protection Officer (DPO), Claire Mehegan, London Diocesan Board for Schools (LDBS), Diocesan House, 36 Causton Street, London, SW1P 4AU. [claire.mehegan@london.anglican.org](mailto:claire.mehegan@london.anglican.org)

- 1.
2. The DPO will investigate the report, and determine whether a breach has occurred. To decide, the DPO will consider whether personal data has been accidentally or unlawfully:
  - Lost
  - Stolen
  - Destroyed
  - Altered
  - Disclosed or made available where it should not have been
  - Made available to unauthorised people
3. The DPO will alert the headteacher and the chair of governors

4. The DPO will make all reasonable efforts to contain and minimise the impact of the breach, assisted by relevant staff members or data processors where necessary. (Actions relevant to specific data types are set out at the end of this procedure)
5. The DPO will assess the potential consequences, based on how serious they are, and how likely they are to happen
6. The DPO will work out whether the breach must be reported to the ICO. This must be judged on a case-by-case basis. To decide, the DPO will consider whether the breach is likely to negatively affect people's rights and freedoms, and cause them any physical, material or non-material damage (e.g. emotional distress), including through:
  - Loss of control over their data
  - Discrimination
  - Identify theft or fraud
  - Financial loss
  - Unauthorised reversal of pseudonymisation (for example, key-coding)
  - Damage to reputation
  - Loss of confidentiality
  - Any other significant economic or social disadvantage to the individual(s) concerned

If it's likely that there will be a risk to people's rights and freedoms, the DPO must notify the ICO.

7. The DPO will document the decision (either way), in case it is challenged at a later date by the ICO or an individual affected by the breach. Documented decisions are stored on the internal school breach register, and in the school electronic and paper filing systems. Where the ICO must be notified, the DPO will do this via the 'report a breach' page of the ICO website within 72 hours. As required, the DPO will set out:
  - A description of the nature of the personal data breach including, where possible:
    - The categories and approximate number of individuals concerned
    - The categories and approximate number of personal data records concerned
  - The name and contact details of the DPO
  - A description of the likely consequences of the personal data breach
  - A description of the measures that have been, or will be taken, to deal with the breach and mitigate any possible adverse effects on the individual(s) concerned
8. If all the above details are not yet known, the DPO will report as much as they can within 72 hours. The report will explain that there is a delay, the reasons why, and when the DPO expects to have further information. The DPO will submit the remaining information as soon as possible
9. The DPO will also assess the risk to individuals, again based on the severity and likelihood of potential or actual impact. If the risk is high, the DPO will promptly inform, in writing, all individuals whose personal data has been breached. This notification will set out:
  - The name and contact details of the DPO
  - A description of the likely consequences of the personal data breach
  - A description of the measures that have been, or will be, taken to deal with the data breach and mitigate any possible adverse effects on the individual(s) concerned
10. The DPO will notify any relevant third parties who can help mitigate the loss to individuals – for example, the police, insurers, banks or credit card companies
11. The DPO will document each breach, irrespective of whether it is reported to the ICO. For each breach, this record will include the:

- Facts and cause
- Effects
- Action taken to contain it and ensure it does not happen again (such as establishing more robust processes or providing further training for individuals)

Records of all breaches will be stored on the internal school breach register, and in the school electronic and paper filing systems.

12. The DPO and headteacher will meet to review what happened and how it can be stopped from happening again. This meeting will happen as soon as reasonably possible

**Actions to minimise the impact of data breaches**

The School will take the actions to mitigate the impact of different types of data breach, focusing especially on breaches involving particularly risky or sensitive information. The School will review the effectiveness of these actions and amend them as necessary after any data breach.

Such actions include, but are not limited to;

- Anonymising and minimizing data
- Encrypted drives
- Secure access servers
- Strong password setting
- Training and support for staff and governors.
- Encrypted email

<b>DATE APPROVED BY COFE SCHOOL</b>	March 2019		
<b>REVIEW DATE Biennial</b>	March 2020  This policy will normally be under a two yearly review, but with the introduction of the Data Protection Act 2019 following Brexit, the review period has been shortened in the first instance.
