

Homework:

Homework will be set each Friday and expected back on the following Wednesday. Remember to bring your reading log to school and read **every day!**

Maths:

This term in Maths we will be learning through a range of topics, including number and place value, measure, money and shape.

English:

This term our theme is journeys and exploration. The children will be working with a key texts in detail and they will be sharing experiences, using role play and a range of exciting activities to re-tell the stories. The children will be working on labels and captions, informal letters, narratives and retellings.

PSHE:

Citizenship: children will learn the roles and responsibilities we use at home and in school. Pupils learn:

1. About people that are special to them and what they do.
2. About the roles of different people in our school.
3. About things they are responsible for at home and school.

D&T /Art:

The children will be taught:

- To use a range of materials creatively to design and make products.
- To use drawing, painting and sculpture to develop and share their ideas, experiences and imagination.
- To develop a wide range of art and design techniques in using colour, pattern, texture and line,

Carnival of the animals. Sapphire Class

History:

Pupils will be taught about: the lives of significant individuals in the past who have contributed to national and international achievements. (Mary Anning - Fossil Hunter)

P.E:

This term we will be exploring movement through Gymnastics and Dance. PE will be taught every **Wednesday**. Please ensure your child has the correct P.E kit- white t-shirt and black/blue bottoms.

Religious Education:

We will be looking at ideas based around the big question: What responsibility has God given people for taking care of creation?

Music:

Our music will be linked with other areas of the curriculum. The children will be taught to: use their voices expressively and creatively by singing songs and speaking chants and rhymes.

Science:

We will be learning about our bodies, senses and why they are important. We will be finding out about a range of animals including fish, amphibians, reptiles and mammals.

Geography:

Children use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the different countries and continents. Children will identify the location of hot and cold areas of the world in relation to the Equator and the North and South Poles.

Computing: We will be developing key computer skills and learning about internet safety.
