Enough for Everyone

What Do We Need?

The background of the slide features a stylized, colorful illustration of a landscape. At the top left, there are grey, jagged mountains. Below them, a green field is visible. In the middle ground, there are several small, brown, rectangular buildings representing a settlement. To the right of the buildings, there are two white animals, possibly cows or sheep, standing in the field. A blue river or stream flows from the top right towards the bottom right. The overall style is simple and cartoonish, with bold outlines and a limited color palette of greens, blues, greys, and browns.

Aim

- I can explain what settlers need.

Success Criteria

- I can identify important features of a settlement site.
- I can list the resources a settlement needs to thrive.
- I can rank human needs by importance to me.
- I can describe how human needs have changed over time.

What Is Important to Settlers?

A diagram consisting of nine empty rectangular boxes arranged in a symmetrical, pyramid-like structure on a light blue background. The structure has four rows: the top row has one box; the second row has two boxes; the third row has three boxes; and the bottom row has one box. The boxes are intended for students to write factors that are important to settlers.
