

Before doing the work below, watch lesson 4 of this week's maths videos on White Rose Maths. Once you have watched the lesson, complete the worksheet below.

For today's task, you will be comparing number sentences and deciding which one is greater than or less than the other number. When doing this task, you can use a ten frame such as this one

You could make one at home and use counters (or even pennies) to help you.

Use 'greater than', 'less than' or 'equal to' to complete the sentences.

1) $10-5$ is _____ $7-4$

2) $15+3$ is _____ $13+2$

3) $17-7$ is _____ $14-3$

4) $6+6$ is _____ $7+5$

5) $14-1$ is _____ $15-3$

Use $<$, $>$ or $=$ to complete the following sentences.

1) $5+5$ ___ $6+4$

2) $7-2$ ___ $8-4$

3) $9-3$ ___ $7-1$

4) $10-4$ ___ $10-3$

5) $5+1$ ___ $7+8$
