

Computing

We will begin to build on our prior knowledge of 'Scratch', improving our basic skills and using multimedia to present our work.

Topic: Invaders and Settlers

Children will learn that many different peoples have settled in Britain over time and appreciate how Anglo-Saxons and Vikings in particular influenced the shape of the nation. Through a study of the broad social context of the Anglo-Saxon and Viking periods, children will learn how this important group of settlers fits into the chronology of Britain. They will be able to contextualise Anglo-Saxon and Viking history and society within a broader timeline of

Science

Our Science topic this term is Electricity. We will learn to construct a circuits and investigate why a circuit is working/not working using different insulators and conductors.

RE 

We will be learning the importance of the symbols, beliefs and teachings in Hindusim.

Coral Class

 PHSE

We will be learning about the physical changes associated with puberty and helping children to recognise their own worth as individuals and to challenge stereotypes.

Enquiry Based Concepts:

Spring 1: Our Journey

Migration around the globe creates a culturally rich society.

Spring 2: Value of God's Word

Courageous advocacy makes a difference.

P.E

In P.E our sessions we will be working on flexibility and strength in athletics, developing and honing our skills.

Homework

Homework will be set each Friday and is expected back on the following Wednesday. Remember to read a minimum of 20 minutes and practice times tables every day.

English

Our English text stimuli this half term will be the core texts 'The King Who banned the Dark' by Emily Haworth-Booth, 'Gorilla' by Anthony Browne and 'The Bluest of Blues' by Anna Atkins. These high-quality texts afford us the opportunity to teach literacy creatively and effectively. All children will write their own narratives and develop characters, plot and story structure.

Class Information

P.E - Wednesday afternoon @ 14.30
- Thursday morning @ 9.00

Class Assembly - Tuesday 8th February

Maths

This term, children will develop deeper understanding, confidence and competence with written methods for multiplication and division. We will then be completing mathematical units on area, fractions and decimals. Our aim is to shape assured, happy and resilient mathematicians.

Remember Year4 will sit a National Multiplication Tables test in the Spring Term, date TBC.
