

## Let's Learn About Autism

**Lesson Plans** For 8-11-year-olds

Join us to share knowledge and acceptance at Autism Acceptance Week 2023!

### Lesson plans: Let's Learn About Autism

| Session title:   | Let's Learn About Autism  |  |
|------------------|---|--|
| Session lengths: | 35 minutes, 50 minutes or 1hr 30 minutes  |  |
| Audience:        | Primary (8-11)  |  |
|                  | 1. For pupils to have a starting knowledge of autism.   |  |
| Objectives       | <ol><li>For pupils to understand that everyone<br/>is different and that different is good.</li></ol> |  |
|                  | 3. For pupils to understand how they can be a supportive friend/classmate.                            |  |

| Time               | Introduction  | Points to consider  |
|--------------------|---|---|
| Up to<br>5 minutes | This presentation is an introduction to autism.<br>Present the first three slides:<br>Slide 1: We are all different<br>Slide 2: People are different<br>Slide 3: Brains are different | Very important: Read<br>the 'Things to consider<br>before you deliver<br>Autism Acceptance<br>resources' before you<br>begin this presentation. |

| Time      | Introducing the concept of difference  | Points to consider  |
|-----------|--|---|
| 5 minutes | <ul> <li>5 minutes</li> <li>5 minutes</li> <li>Slide 5: Play the video the first 1min31 seconds of 'Amazing things can happen': <ul> <li>https://www.youtube.com/</li> <li>watch?v=RbwRrVw-CRo</li> </ul> </li> <li>Talking prompts: People see the world in different ways. All brains work differently. <ul> <li>Does anyone know what autism is?</li> </ul> </li> <li>After a few responses, play the video up until 2mins14. 2.14 – 2:45.</li> </ul> | Another question could<br>be, does anyone know<br>someone who is autistic?<br>If you have a pupil in your<br>class who is comfortable<br>and who you have<br>approached before the<br>session, they can share<br>their experiences. |
|           | Slide 6: Talking prompts: You can't see if<br>someone is autistic. It is an invisible condition.<br>Autism means that someone's brain works a<br>little differently. Just like it says in the video,<br>each autistic person is different. They have<br>different strengths and different difficulties.<br>Slide 7: Autism - the differences   |   |

| Time       | Discussing difference  | Points to consider |
|------------|--|--------------------|
| 10 minutes | <b>Slide 8: Talking prompts:</b> Talk about the differences between yourself and other staff (or fictional characters My friend X), focusing first on likes and dislikes.  |                    |
|            | e.g. I really enjoy Maths but Miss Smith<br>doesn't. Miss Smith is really good at drawing.<br>I find drawing hard. I really like listening<br>to pop music. Mr Jones likes jazz music.   |                    |
|            | Slide 9: Start to move towards differences<br>in sensory needs, communication<br>and social interaction.   |                    |
|            | e.g. Mrs Brown loves the smell of lunch. The smell<br>of lunch makes me feel funny. Mrs Brown likes<br>to have really colourful display boards. Really<br>colourful display boards make my eyes hurt.<br>Mrs Brown loves to wear woolly jumpers. I find<br>woolly jumpers so itchy. They hurt my skin.<br>Mrs Brown loves to chat on the bus. I can't<br>chat on the bus. It is already too noisy. |                    |
|            | If you have time and it feels appropriate,<br>ask the children to talk in pairs or groups<br>about what they like or how they feel.  |                    |
|            | You could use the examples above. Or you could use colours, animals, sports, lessons or weather.   |                    |
|            | Ask a few to share back their answers<br>and see how they were different to<br>their partner or group members.   |                    |
|            | <b>Talking prompts:</b> Lots of you had different<br>answers there. You all like and dislike<br>different things. We think difference is good.<br>It wouldn't be fun if we were all the same!  |                    |

# Autism Education Trust

| Up to<br>15 minutesWe are now going to think about our<br>differences a bit more.<br>We are going to write or draw about<br>our feelings and our skills.Talking prompts: What makes you happy?<br>What do you do when you're happy? Once<br>you have had a few responses, ask them<br>each to draw their answer in the box on<br>the worksheet. Again, emphasise that<br>everyone's answer can or will be different.<br>You have around 5 minutes per question and<br>for the pupils to write or draw their responses.Children can write or<br>draw. Please emphasise<br>that whatever they draw<br>would express their views<br>and so they don't need<br>to worry about being<br>'good' at drawing.What makes you sad? What do you do when<br>you're sad? What is the thing you are best at?Once they have written or drawn their<br>answers for the three prompt questions,<br>finish up the activity by reiterating the<br>importance and value of difference.What makes you sad? What helps<br>teams work.Tottal TIME: 35 MINUTESTOTAL TIME: 35 MINUTESMeans work | Time | Discussing difference  | Points to consider  |
|--|------|--|---|
|  | •    | <ul> <li>differences a bit more.</li> <li>We are going to write or draw about<br/>our feelings and our skills.</li> <li><b>Talking prompts:</b> What makes you happy?</li> <li>What do you do when you're happy? Once<br/>you have had a few responses, ask them<br/>each to draw their answer in the box on<br/>the worksheet. Again, emphasise that<br/>everyone's answer can or will be different.</li> <li>You have around 5 minutes per question and<br/>for the pupils to write or draw their responses.</li> <li>What makes you sad? What do you do when<br/>you're sad? What is the thing you are best at?</li> <li>Once they have written or drawn their<br/>answers for the three prompt questions,<br/>finish up the activity by reiterating the<br/>importance and value of difference.</li> <li><b>Talking prompts:</b> We need different skills. We<br/>need different strengths. That's what helps<br/>teams work.</li> </ul> | examples for the pupils<br>to use. Where possible,<br>encourage them to<br>think of their own.<br><b>Children can write or</b><br><b>draw.</b> Please emphasise<br>that whatever they draw<br>would express their views<br>and so they don't need<br>to worry about being |

| Time               | Introduction   | Points to consider |
|--------------------|--|--------------------|
| Up to<br>5 minutes | Slide 11: To take the lesson further, or for a second lesson, turn to thinking about how being different at school can be difficult. |                    |
|                    | <ul> <li>We know that difference is great,<br/>but sometimes it can be hard when<br/>you think differently.</li> </ul>               |                    |
|                    | <ul> <li>It can make you worried about<br/>making friends.</li> </ul>  |                    |
|                    | <ul> <li>It can be hard if you don't like the same<br/>things as other people.</li> </ul>  |                    |
|                    | <ul> <li>It can make you feel like no-one wants<br/>to play with you.</li> </ul>   |                    |
|                    | Slide 12: Amazing things can happen:<br>3:23 onwards talks about how people<br>can support autistic friends.                         |                    |

#### Section 2

| Time  | Introduction   | Points to consider  |
|---|--|---|
| Up to<br>10 minutes   | <ul> <li>Slide 12: Ask the children:</li> <li>How can we be better classmates?</li> <li>Talking prompts:</li> <li>How can we support each other?</li> <li>How can we support our autistic classmates?</li> <li>How can we celebrate the fact that</li> <li>everyone has different likes and dislikes?</li> <li>If you have an autistic person who has said</li> <li>they're happy to be involved, you can ask</li> <li>them to talk about the way they see the</li> <li>world. You can ask them to share how they</li> <li>would like to be supported by their friends.</li> </ul> | If this activity is being<br>done straight after the<br>activity on differences,<br>the pupils will understand<br>how the worksheet<br>works. If there is a gap<br>between lessons, remind<br>them that they can draw<br>or write in the worksheet. |
| Once you have had a few responses, ask them<br>each to write or draw their answer in the box<br>on the worksheet. Again, emphasise that<br>everyone's answer can or will be different.<br><b>Display idea:</b> Use the young people's<br>worksheets and create<br>a display about valuing difference and being<br>supportive. |  |   |
|   | worksheets and create<br>a display about valuing difference and being  |   |
|   | TOTAL TIME: 50 MINUTES   |   |

| Time                | Introduction  | Points to consider   |
|---------------------|---|--|
| Up to<br>40 minutes | <b>Slide 13-16:</b> The Autistic Young Expert's panel<br>have come up with the following four learning<br>scenarios based on their experiences at school.<br>These scenarios should be used to promote<br>discussion, and support pupils in working out<br>how to be inclusive. The suggested answers<br>are not exhaustive but are the start of a<br>conversation. No pupil should be made to feel<br>that they are giving the wrong answer but<br>should be supported to explore their ideas. | Refer to the Learning<br>Scenarios on the Idea<br>Pad worksheet. |
|                     | These scenarios could be used as part of a<br>follow-up discussion to the first two activities.<br>They could also be returned to whenever there<br>is a situation in which classmates aren't being<br>supportive of one another as a reminder.   |  |
|                     | <ul> <li>You could split the class into<br/>smaller groups and give them each<br/>a scenario to work through</li> </ul>   |  |
|                     | <ul> <li>You could tackle one scenario at a time<br/>as a whole class and ask for pupils to<br/>answer the questions individually</li> </ul>  |  |
|                     | <ul> <li>You could use the scenarios as role-plays and<br/>ask pupils to act out how they would respond<br/>or react</li> </ul>   |  |
|                     | TOTAL TIME: 1 HOUR 30 MINUTES   |  |

Join the National Autistic Society for a colourful week of fundraising!

World Autism Acceptance Week is back from 27 March – 2 April 2023!

The theme for 2023 is colour, and the NAS has a new virtual challenge, the <u>Spectrum Colour Challenge</u>; a new in-person event, the <u>Spectrum Colour Walks</u>; and lots of ideas to get your fundraising off to a colourful start.

For more information on autism and education, visit: <u>www.autismeducationtrust.org.uk</u>
